DANIEL OLORUNLANA

Web Developer | Transitioning into Flutter

[your email address] | [your phone number] | [City, Country]
Portfolio: **dannistec.netlify.app**

PROFILE

Web developer who is always curious about tech and learns by building. Currently moving from web development into Flutter and Dart, so the things I build can run on phones as well as browsers. I like shipping small projects, learning from what breaks, and improving the next one.

PROJECTS

Dannistec Portfolio Site | dannistec.netlify.app

- Designed and built my personal portfolio with Home, About, Resume and Contact pages.
- Created a custom neon theme with responsive layouts and motion effects, including 3D animation on the contact page.
- Connected the contact form to email using Netlify Forms, and deployed the site on Netlify.

[Project Name] | [link or Web / Flutter]

- [What you built and what it does]
- [Tools you used]

SKILLS

Web: HTML, CSS, Bootstrap, Responsive Design
Tools: Netlify (deployment and forms)
Learning: Flutter, Dart

EDUCATION

[Your Programme or Degree] | [Your University]
[Start Year] - [End Year]
